Enhancing the Reading Comprehension Skill of Selected Grade 4 Pupils in Wawa Elementary School Through The Use of Worksheets

Myrna S. Mahilum

ABSTRACT

This study aims to assist in improving the reading comprehension of a selected group of Grade 4 students at Wawa Elementary School. The main objective of this research paper is to help address the recent result in the conduct of Phil-IRI in which 35.24% of Grade 4 students fall under frustration readers. This evident problem in reading comprehension among Grade 4 pupils will be given assistance to by the utilization of activity sheets to enhance the reading comprehension skill of Grade 4. To improve their reputation and fulfill educational goals, educational institutions must encourage students to get involved and accomplish successfully. It is vital for educators and school officials to give pupils with opportunities in order to increase their involvement and performance. To provide opportunities for students, members of educational institutions must efficiently carry out the responsibilities of planning, organizing, directing, managing, and coordinating. They must consider the fact that providing chances not only facilitates student engagement, but also allows them to enhance their skills and talents. Encourage student engagement and the development of their skills and abilities. The key areas considered in this study work include the usage of worksheet in improving the reading comprehension of Grade 4 students.

Key Concepts: Reading Comprehension, Worksheets

INTRODUCTION

In enhancing the student's reading comprehension skills, worksheets can help students attain academic success in a variety of ways. It may be used to enter class information. Furthermore, voids on worksheets invite students to fill in the gaps; these are possibilities for knowledge development. When combined with appropriate teaching approaches, well-designed worksheet questions may pique students' attention. Furthermore, worksheets serve a range of purposes in various circumstances. Worksheets have long been utilized in educational settings. Worksheets have even become a driving force in curriculum development in the modern era. Worksheets are used by teachers to aid in studying, promote active learning, increase enthusiasm in learning science, and test students. Much research indicate that well-designed worksheets improve students' learning success. This study will attempt to look into the positive impact in the use of structured worksheets in teaching. These worksheets will be used by the Selected Grade 4 pupils of Wawa Elementary School.

RESULTS AND DISCUSSIONS

Based on the data gathered after the study was implemented, the use of worksheet in helping the enhancement of Grade 4 pupils' reading comprehension skills had a positive impact to the student's scores between the pretest and posttest. It was shown that the effectiveness of the intervention via structured activity sheet was evident in the results of the assessment before and after the implementation of the pla

CONCLUSION

Enhancing pupils' reading comprehension skills is a vital role to improve academic learning of learners with the help and time effort of teachers and guidance from the parents. Consistent follow up to the learners are engaging importance role of teachers and parents.

RECOMMENDATIONS

- Grade 4 teachers are engaged to help the learners through home visitation.
- Other Grade 4 teachers provide time and effort in order to help address the issue of pupils' reading comprehension skills.

REFLECTION

The researcher realized that when there are shortcomings because of unexpected events, like the pandemic, that could affect the students' skills, it is necessary to take measures that will help address these issues. Additionally, coping or solving these kinds of problems, learners must have support from their parents and their teachers to guide them into improving their skills they will need in the future.

STATEMENT OF THE PROBLEM

This research study aimed to enhance the reading comprehension of the Grade 4 pupils of Wawa Elementary School.

Specifically, this study sought to answer the following question:

1. How can the use of worksheets help in enhancing the reading comprehension of selected Grade 4 pupils?

METHODOLOGY

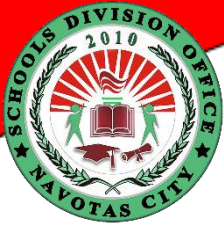

The descriptive design was utilized in this study which describe systematically the situation of fifteen (15) Grade 4 students who will be undergoing a four-week plan of students being introduced to the usage of organized reading worksheets. The results of the activities will be documented in order to track their progress. The phil-IRI pretest and posttest data will be used to assess the intervention's efficacy.
